Land Owners Giving Title For Flood Control

Hilsbeck Family Present Right Of Way On 6000 Acres In Broward-Deade Counties

A surprise, but a very pleasant one, was presented to the Central and South Florida Conservancy district trustees at their annual meeting in Miami, on Tuesday, when Dewey Hilsbeck, former chairman of the old Everglades Drainage District, informed the Board, that he and his family, were presenting flood rights to some 6,000 acres in Broward and Deade counties, but reserving the oil and mineral rights. Deeds for the land, originally purchased by the Hilsbeck family some 40 years, from Governor Broward, the first drainage advocate for Everglades drainage, will be presented to the Board soon.

Hilsbeck told the board that he would not ask others to do what he would not do himself, hence he took the lead in such gifts. He was of the opinion that many other land owners would be making similar gifts, so that some 200,000 acres of needed land for the conservancy project would come to the Board, with out cost to the water control project, and would materially reduce the cost of the immense project.

Turned Wallis, chairman and engineer for the trustees, expressed much pleasure at the Hilsbeck gift, and commended the spirit in which it was presented, for the good of the people of South Florida, and hoped that he could influence others to make like gifts.

Army Engineers are preparing to ask for bids on additional projects in hopes that the Federal Government, through Congress, will appropriate additional working funds.

The Smith Reynolds Construction company, of Lake Park, already has a mass collection of high powered mechanical equipment on the site of the starting of the project near Dania, which work will be started during the coming week. Contractor Smith states that it is the plan of his company to have their contract work finished considerably ahead of the time limit for completion.

Golden Rams Open Basketball Season With Lake Worth

Coch James Maynor's Golden Rams Basketball boys opened the season on 15 scheduled games, this Friday night, by playing the Lake Worth Trojans on the latter's court. The Coach has had his boys training the past week and they are showing up quite well, but just how strong and proficient they may be will not be known till they meet some of the other teams of the conference.

Coch Maynor has released the following schedule for the team:

At home: Jan. 13, Secret; Jan. 20, Ft. Pierce; Jan. 24, Vero Beach; Jan. 28, Ft. Pierce; Jan. 31, Pahokee; Feb. 2, Vero Beach; Feb. 7, Lake Worth; Feb. 10, Ft. Pierce; Feb. 14, Ponce De Leon of Miami.

Games away: Jan. 7, Ponce De Leon; Jan. 17, Pahokee; Jan. 21, Key West; Jan. 27, Ponce De Leon; Feb. 7, Secret; Feb. 14, South Broward at Dania.

Field Membership Secretary Named For RDB Work

Arnold E. Kirchman, of Belle Glade, president of the RDB, has announced the appointment of R. H. Gault, of West Palm Beach, as working chairman of the Membership, commencing January 15.

For the past 18 years a new director has been elected each year to the post, and his duties will be to solicit and enlarge the membership of this most important organization.

Ralph Blank, the general secretary, states that the main ob-

Dr. Harold Elsberry Moves To St. Petersburg With Dental Equipment

Dr. Harold E. Elsberry, who has been a practicing dentist in Belle Glade, for more than a dozen years, has moved out of his dental shop and laboratory and has moved to St. Petersburg, where he will continue his practice in a downtown bank building located.

"Doc" has been active in civic work and was a member of the Elks Lodge and the Country Club. Doc and Mrs. Elsberry will both be missed in their association here.

Dr. Victor Mulberg who has had his dental office in the Elks building on West Avenue A, has leased and moved into the Elsberry location where he will continue the practice of his profession.

Public Schools re-open with new teachers and increased enrollment.

The public schools of the two Glades areas opened up again on Tuesday morning, after a two weeks holiday vacation. Principal Howell announces that the schools will be staffed, owing to losses of absence and resignations, but otherwise teachers are well equipped with new pupils registered.

As the Belle Glade and Sanford markets were the principal sources from which Florida winter produce was obtainable, the holiday period did not show a slump in shipments of green goods, as the car movement record will show. Prices held fairly steady, except for a few fluctuations.

Shipments of snap beans, potatoes, radishes and leaf products were really moving because of the Yankee people do demand their usual foods.

Growing crops are recovering somewhat from their winter drought and within another week there will be considerable harvesting going on, with additional activities at the packing houses.

The New York Packer, the official organ of the Fruit and Vegetable people, recently conducted a questionnaire poll, to find out how big the trade might be, and what the value of investment in their equipment and plants might be, and their buying power. The results were startling and revealing, in that they found it was a six million dollar industry.

The report also shows that with growing population and food demands that fruit and vegetable people are expectant of a heavy expansion of business.

Permits issued for Two New Dwellings First week of 1950

City Inspector N. B. Willis, issued building permits for two new dwellings in the past week, as follows: T. W. Learned, 33, 750, at Fourth street and S.W. Avenue A; Robert S. Shap, L. E. Griffith, a home at 566 Southeast Fourth street; and a new dwelling in the past week, as follows: T. W. Learned, 33, 750, at Fourth street and S.W. Avenue A.

Inspector Willis also calls attention that quarterly garbage permits are again on sale. A saving of \$1.00 a year can be saved if a yearly garbage permit is taken out.

New Star Officers Installed Amid Much Beauty

Virginia Sister Of Mrs. Mary Schlechter Conducts The Ceremony Of The Occasion

One of the big events of the year in Eastern Star chapters is the annual installation of officers. This is one time when the "gals" don their party gowns and put on a most dignified ceremony of induction, along with other delightful features.

Belle Glade Chapter No. 197, on the evening of December 23rd, in conjunction with Belle Glade Lodge No. 273, F. & A. M., held open house ceremonies.

While it primarily was a chapter affair, owing to unusual conditions existing, it was quite a night for the Walter and Mrs. Schlechter, as they were main participants in the honors of the occasion.

Mrs. Margaret Royals retired as Walter Matron and was succeeded by her sister-in-law, Mrs. Mary Schlechter. Walter Schlechter was the new Walter Matron, Mrs. Royals became the new Worshipful Master.

Mrs. Dorothy Rollins, Past Matron of Colonial Chapter, of Hialeah, Fla., was elected as the new officer of the Star work, she being a sister of Mrs. Walter Schlechter.

Walter Schlechter, Jr., was one of the soloists and the Schlechter and Royals girls were flower girls and ring bearers. The Virginia lady did a mighty fine piece of work in the performance of her duties.

The opening ceremonies were conducted by Acting Patron Joseph R. Cherry, and the installing staff consisted of: Chaplain, Walter Matron, Mrs. Beatty; Marshall, Past Matron of Pahokee Chapter, Mrs. Alexander; Secretary, Mrs. Beatty; Treasurer, Mrs. Beatty; and the new officers of the chapter.

In due form the Chapter officers of 1950 were installed. The list is as follows: Walter Schlechter, Matron; Dorothy Rollins, Past Matron; Mrs. Alexander, Secretary; Mrs. Beatty, Treasurer; and the new officers of the chapter.

Annual Election Of Directors For Country Club Of The Everglades

The annual election of the directors for the Country Club of the Everglades will be held on Wednesday night, January 11, preceded by a pot luck supper at 7 o'clock. This will be an important meeting as some changes will be discussed and a full attendance of members is desired.

The New Year's dance went off with a bang and was one of the most successful parties the club has had. Mrs. Lila Spence had charge of the tickets and Louise McWhorter the decorations and noise makers and both deserve a lot of credit for its success.

The Commissioner did not serve Pennington with a copy of the charges, but did file same with the City Clerk.

Official notice of the charges were given Pennington by the Sheriff's Office.

A very close mouthed attitude has been maintained by Commissioner Harris, the City Clerk, and Mr. Pennington.

Charges presented by Harris in his bill of complaint. However, the charges are not clear, and some of the charges were most serious, and it proven or disproven.

In 1947 Eva Horne Jones, widow of Florence, South Carolina, was one of the charges, a daughter in college and three boys teen-age and young.

The three morning of January 3rd Eva Horne died peacefully in her sleep after having passed the biblical three-score-and-three years of life.

Characteristic of Mrs. Jones was her garden and flower beds as well as with her chickens on Monday afternoon and carried with her regular household duties before retiring at her normal time.

Winnaboo, S.C. from the First Baptist Church, Mrs. Jones was a member of the church.

W. Horne, brother, who is a merchant in Winnaboo, is the only survivor of the original family. Lesley, J. B. and Luther Jones, with Mrs. Mary Horton, graduate students at the College, Nashville, Tenn., are the surviving children.

Luther Jones, Jr. and Leslie Jones are grandchildren, along with Peter, Lorraine and Connie Kelly.

Hurricane No. 4 To Be Closed For Maintenance, Repair

A. R. Broadfoot, U. S. engineer in charge of the state, is going to be necessary to close hurricane gate No. 4, during the next few days.

At the Community Methodist Church, the corner stone of the new church will be laid on February 19, 1950.

Suspension Orders Filed Against City Street Force Head

Commissioner Harris Files 13 Complaints Against Street Superintendent Pennington

Another eruption took place in City Family circles, on Jan. 1, when Street Commissioner Julius Harris, served verbal and letter written notice on Street Superintendent Thomas Pennington, suspending him for a period of thirty days, until such time as charges could be held before the new City Civil Service Commission.

The Commissioner did not serve Pennington with a copy of the charges, but did file same with the City Clerk.

Official notice of the charges were given Pennington by the Sheriff's Office.

A very close mouthed attitude has been maintained by Commissioner Harris, the City Clerk, and Mr. Pennington.

Presbyterians Let Contract For New Church Building

The official of the Everglades Presbyterian church, has let a contract to W. L. Cunningham, for the erection of a church building in its property on North Main street extension, and excavation, and pile driving has been effected.

The new building is located at the rear of the lot, and will be the Sunday school annex in the complete church building. The building will be of steel, concrete block and stone, and the main sanctuary can be erected. The building will be of steel, concrete block and stone, and the main sanctuary can be erected.

Nations Cattlemen Flock Over Florida While Enroute To Big Miami Convention

Marble Game Ended In Attempt To Shoot Boy

A number of the colored boys at Camp Okeechobee, on New Years morning, engaged in a friendly game of marbles. William Garry, a seventeen old lad, was not a game loser, so a rock throwing battle was introduced.

Garry is charged with going to his home and getting his father's rifle, and then taking a pot luck shot at one of the boys seated on a near-by step, but the bullet went wild and landed in the side of the stone. Garry was taken in custody and turned over to Deputy Sheriff Frank O'Connell on his juvenile conviction.

By this means they were able to see all the separate farming and citrus areas of the state, seeing nut and citrus groves, and cattle ranches, and the Magic City of Miami with all its attractions, giving them a good idea why Florida is tickling and taking so important a part in the nation's economy.

On Wednesday morning, the Lake Wales five year-Greyhound bus, a delegation of the State Cattlemen's Association to the Country Club at Clearwater as a past noon rendezvous.

The Kwanish club of Clearwater gave a \$50.00 more delicious free barbecue meal, consisting of ribs, swamp cabbage, salad, cornucopia, cucumbers, etc. 17 bread and coffee. Florida guests said a nominal fee for their dinner, had not proved useful for Governor Warren's treasury.

It was quite apparent that the question of attendance of the State Cattlemen's Association was a general one in homes. Dad, though he would come, and Mother would, and said "Me too." So egg, butter and produce money went into the money bag, and the result is that both are on the way.

Looking over the coat badges, the writer, found not a state wide badge, but a state wide badge, and there were many delegates present from all over the state, but not a man in the group but what wore some type of a badge, and the result is that both are on the way.

The injured men were manrooned in the "swamp" for a number of hours before they could be removed to the hospital and from there to the Belle Glade hospital, where surgeons were called to attend.

The hunting jeep was a practical wreck and was so deeply imbedded that it took the aid of the rescue party, had to send one of the men to the hospital to recover and remove the machine.

The hunters reported a very enjoyable hunting trip, but no deer or turkey, in which they were in quest.

Goodlett was released from the hospital on Sunday, and was on duty at police headquarters on Monday. Whitlock remained in the hospital for more rest and observation, for that big bulk of a body did get a pretty severe jolting up.

Prison Farm Trusty Escaped on Tuesday

Otis Murphy, white prisoner at the State Prison farm, a garden trusty got weary of prison confinement, Tuesday morning, and walked away from the prison farm, and it was several hours before he was missed.

Murphy was serving a seven years sentence and had only a few months yet to complete his term of imprisonment.

Important Masonic Meeting Called for January Tenth

Jack Maynor, new Master of Belle Glade Masonic Lodge, states that the next regular meeting of the lodge will be of vital importance to all members of the lodge, and will be a full attendance of members.

The meeting will be attended by group of men from Belle Glade, and from the surrounding area, including Russell Williams, "Clubby" Wright, John Nix, and the Special group will be presented, but no degree work scheduled.

Some 350 Visit Stock Ranch And Sugar Mill At Clearwater; Bus Failure; No Local Visit

Large delegations of the nations cattlemen from all portions of the north central and western states, on Sunday, began to roll into the "Sunshine" State of Florida, by train, bus and private equipage. Some entered at Lake City and others at Jacksonville. Some groups came down the Tampa and Tallahassee route, some down over the Tall national highway, known as Federal route 27; and still others came down the east coast over Federal Route 1, to Miami, the terminus of the national convention.

By this means they were able to see all the separate farming and citrus areas of the state, seeing nut and citrus groves, and cattle ranches, and the Magic City of Miami with all its attractions, giving them a good idea why Florida is tickling and taking so important a part in the nation's economy.

Carolyn M. McWhorter
Wed To W. C. Fletcher

In a quiet ceremony at the home of her parents, Mr. and Mrs. C. W. McDonald, Carolyn McDonald McWhorter became the bride of W. C. Fletcher of West Palm Beach, Friday night at 8:00 o'clock.

The single ring ceremony was read by the Rev. Leonard Vanderwater, before an improvised altar banked with tall baskets of gladioli and fern.

The bride wore a green crepe street length dress with brown accessories and an orchid corsage. Caroline Cone was maid of honor, wearing a pastel green suit and gardenia corsage.

A reception was held immediately following the ceremony for immediate members of the family and a few close friends.

The three tiered bride's cake centered the lace covered table and was surrounded with an attractive arrangement of red roses and fern.

McDonald in serving the fruit punch and cake, were Mrs. Carl McDonald, Mrs. S. A. Roberts, and Betty Jane McDonald. Mrs. Tom Fletcher was in charge of the guest book.

Out of town guests were Mr. and Mrs. Tom Fletcher, of West Palm Beach, brother and sister-in-law of the groom, Mr. and Mrs. M. A. Hennessy and William J. Hennessy, of Ft. Lauderdale.

The bride attended Pahokee and Belle Glade schools and Mr. Fletcher is a veteran of World War II and employed with the Southern Bell Telephone Company in West Palm Beach.

The couple are at home at 708 Avon Road, West Palm Beach.

Delray Citizens Approve City Charter

Delray electors the past week approved the new city charter set up by act of the recent state legislature by an overwhelming vote.

The new city commission in organizing selected John N. Kabbler, as Mayor, succeeding Jack Saunders. New commissioners were in W. W. A. Jacobs and Robert Holland.

NOTICE OF MEETING

The annual meeting of the Everglades Federal Savings and Loan Association of Belle Glade will be held in the Association's office, Wednesday, January 11, 1950 at 2:00 P.M., at which time regular business of the annual meeting will be transacted.

Lamar Johnson Speaker
At Woman's Club Meeting

The Woman's Club met Wednesday afternoon at the clubhouse for their regular meeting, which was opened by the group singing.

The beautiful, accompanied by Mrs. James A. Dall at the piano, followed by the pledge of allegiance to the flag.

During the business session, presided over by President Mrs. E. C. Douglas, Mrs. Robert Cameron accepted an appointment to represent the Club at the Hospital auxiliary, membership to be paid by the club.

An announcement was made by the president that the County Federation meeting will be held in Pahokee, Thursday, January 12th. She also stated the Club had taken in \$100.33 on the T.R. Seal drive sponsored by the T.R. Seal drive.

Mrs. J. L. Gray, conservation chairman, in charge of the program, introduced Mr. Lamar Johnson, of Lake Worth, engineer for the Everglades Drainage District, who spoke on Wildlife Conservation.

Visitors attending were Mrs. Roman E. Rollins, Jr., Mrs. Dan Graham, and Mrs. E. J. Everett and new members present.

Harry Delaney and Mrs. W. C. Young.

Hostesses were Mrs. J. H. Chumley, Mrs. C. A. Thompson, Mrs. J. E. Thompson and Mrs. C. D. McClure.

Fire Control Directors Meet in Important Session

An important meeting of the directors of the Everglades Fire Control Association was held at the Belle Glade, Thursday afternoon, which was attended by a considerable group of officials interested in some portions of the business transacted.

PTA Program To Be On "Safety Patrol"

Monday night, January 9th, is the next regular meeting of the PTA, at 8:00 o'clock in the school auditorium.

Mrs. W. D. Matthews, in charge of the program, will present a movie on "Safety Patrol" and the boys of the school point will present a short skit on safety.

FIELD MEMBERSHIP

(Continued from page one)

atives of the HDB, for 1949, will be water control, beach erosion, agriculture and market.

The following men have been named as vice-presidents for the coming year, and acting chairman of the designated committees: Live Stock Market.

Belle Glade Herald

ing, E. M. VanLandingham, and John L. Evans, Flood Control, Luther Jones, Beach Erosion, George A. Nicol, Vegetables, O. S. ment that this was their first visit to Florida, and that they were enjoying every minute of the trip, along with the general hospitality shown all along the Florida route.

After the barbecue at Clewiston, many visited the Sugarland ranch, where Sup. Sid Crockett warmly welcomed the visitors, and then proceeded to tell of the building of the ranch, and the breeding program underway there. He had a most attentive audience, and many questions were asked by the western breeders. Stockmen expressed much admiration for the four breeds of stock they found at the ranch, and expressed interest in the Florida cattle station at Belle Glade.

Visitors who did not care to visit the ranch went over and were conducted through the sugar mill, where they learned plenty about sugar cane production and sugar manufacture.

From Clewiston the party was booked for a visit to the Experiment Station at Belle Glade, but a break-down in a bus, prevented the visit and the entire party was held up for a late arrival in Miami.

The National convention of the Florida Cattleman's Association, and its branch associates. The convention was attended by 1900 delegates, and it was the first convention of the Association ever held east of the Mississippi river.

Turner Wallis, chairman and engineer for the Central and South Florida Conservancy Division, was present at the Clewiston gathering and mingled among the visitors informing them of the big reclamation and protecting project to be built in South Florida.

From the press of the Belle Glade Herald, a four page paper, was issued for distribution at the Miami convention, devoted largely to the Everglades cattle program. The paper included special articles by George C. Maynard, Junior Warden, C. E. Young of the Chamber of Commerce, Ralph Kidder and Roy Blair of the Experiment Station, and Luther Jones, editor of the Herald.

The Styline, one of two individually designed sedans Chevrolet also offered increased power and comfort with new 150 cubic inch V-8 engine, improved grille, the Powerglide automatic transmission as optional equipment, sturdier bumper guards and more tasteful ornament on De Luxe models.

MANONIC BODIES

(Continued from page 1)

duetists, Martha Freeman, Chaplain, Inez Greener, Marshall, Ralph E. Freeman, P.M.

As a token of appreciation for his work of the year, on behalf of the Lodge, J. R. Cherry presented the outgoing Master, Warder, Gladys McDonald; Sentinel, Wendell Lyons.

Musical number of the evening were as follows: "God Bless This Home," by G. J. Evans; "Star of the East," by Walter Schlechter, Jr.; and "All Through the Year," Miss Margaret.

The lodge installation was presented with beautiful floral remembrances. Mr. and Mrs. J. Evans were made the "Father" and "Mother" of the chapter for 1950.

Mrs. Rogers presented the Matron and the new Worthy Matron and she in turn presented Mrs. Rogers with her Past Matron's Jewel; and the Chapter did not forget the visiting installing officer, Mrs. Rollins, who was presented with a gift of the available.

The installation of the Masonic lodge officers was not so elaborate as that of the Chapter. The lodge installation was conducted by J. R. Cherry, as installing Master; Past Worshipful Master, Frank Anderson, as Master; and D. R. Kemper, of Orlando, as chaplain.

The new corp of officers are as follows:

Worshipful Master, Harold L. Rogers; Senior Warden, C. E. Maynard; Junior Warden, William Jeffries; Treasurer, Lawrence E. Will; Secretary, C. P. Chase; Chaplain Tom Watson, Jr.; Senior Deacon, Wm. Evans;

CHIEFTON STYLED

(Continued from Page 1)

ness coupe, convertible coupe and all-steel station wagon. As in the 1949 models, when Chevrolet set new volume records to once again lead the industry in sales, most of the bodies are available in "special" and "de luxe" treatments.

Improvements through the 1950 chassis and bodies are many. A new "Power-Jet" carburetor eliminates the "lean" periods in gasoline feed and affords quicker warmup in cold weather. Larger exhaust valve capacity helps power output.

Each of the six-cylinder passenger car engines follows the traditional, economical valve-in-head design. In the new bodies, stylists have accomplished striking effects with smart, two-tone upholstery and a freshly-fabricated exterior metalwork.

The Powerglide automatic transmission makes use of hydraulic torque conversion, a method of smoothly transmitting power to wheels that received considerable impetus during the war in the search for more maneuverable armoured vehicles.

Torque, or the force of rotation generated at the engine crankshaft, is now transferred through rapidly whirling oil. The force is increased in direct proportion to throttle pressure, as with the conventional clutch and gear transmission. However, instead of the "steps" involved with mechanical gear linkage to reduce engine speed the car gathers momentum, the flow of power to the rear wheels is fluid and variable. Once the car is moving with the lever in "Drive" position, no shifting action is necessary regardless of the number of traffic stops-and-goes.

To develop an automatic transmission, Chevrolet engineers had two major problems even after the fundamental principles had been determined. The first was to design a unit that would meet Chevrolet's high-volume, quality standards.

The second was to assure the economical operation of the first problem involved an entirely new manufacturing setup and the construction of huge batteries of special purpose machinery. The mechanism, especially in the vane which multiply the power of the fluid, requires exacting workmanship. A new plant was opened at Cleveland and manufacturing departments added at Flint, Mich. Starting slowly, the company forecasts a steady rise in production to a level never previously attained with precision parts of this description.

Chemists have been searching around for a new insecticide that has better killing qualities than the popular DDT, and it has come in the form of

RHOTANE

It will give Better, Safer Protection against Corn Earworms and Borers, and other plants on which DDT has been used. It is approximately 1-5 — 1-10 as toxic to warm blooded animals as DDT.

Research has shown that Rhotane has been most successfully used in spraying Vegetables, Forage Crops, Live Stock, Fruits, in Mosquito Control and many other new uses. A deadly enemy to "hornworms".

OBSERVATIONS

Continued from page 1
to bid on this big contract. All of these firms have done much highway work in the Palm Beaches, Hendry and Glades counties.

County Agent M. U. Mounts says that while vegetable growers of the Glades and Easternmost have suffered from a loss of less on crops by recent rains, those in the cattle business have gained by the appearance of better pasturing grasses.

Palm Beach law officers, Sheriff John Kirk, Constable Ray Whitlock and Chief of Police Charles Goodlett spent last week down in the Big Cypress hunting turkey and deer and doing a bit of "meat" fishing. En route to camp, Ronald Whitlock, must have lost his wallet, for a man by the name of W. J. Sprague, of Findlay, Ohio, found it lying along the highway just east of Wildwood corner.

The wallet contained no money, but a personal paper were strewn about in the grass. These he picked up, and with the wallet, turned into the Belle Glade police department. Sprague is a fisherman and had been over from Stuart to try our fresh water fishing in the lake, and stated that he would be back here next year, and with the wallet, turned into the Belle Glade police department. Sprague is a fisherman and had been over from Stuart to try our fresh water fishing in the lake, and stated that he would be back here next year, and with the wallet, turned into the Belle Glade police department. Sprague is a fisherman and had been over from Stuart to try our fresh water fishing in the lake, and stated that he would be back here next year, and with the wallet, turned into the Belle Glade police department.

We ought to be able to keep our bodies, clothing and shoes a bit cleaner this year, for soap manufacturers have announced a sizeable cut in price on their powders and cleaning materials. Ought to be bit more consumption of soap, then, and we could save a few cents on these commodities are coming down.

The Florida Cattlemen, in view of the National Cattlemen's Association convention in Miami and the annual Brahman sale at Guala, this month, came out with a fine January edition. In it the Tabat and VanLandingham ranches of Belle Glade are given prominent mention in advertisements.

Chairman Julius Harris of the Street committee states that about February 1st, he will inaugurate another program for extensive street repair and improvements in the city. Second and First Streets will be the first improvement undertaken. The city will be able to take some rock out of its own pit, but will likely also get some rock from the adjoining pits owned by the city and N. N. Starling.

The State Game and Fresh water Commission, the past week, purchased from the Southern Land and Timber company, 10,250 acres of land back of Jupiter, for \$51,400. This land lies north of the present state game preserve, and it is suspected that the new area will be thrown into the reserve. The Commission has added some new breeding stock to this area, in a move to produce more game for later hunting. There will be thousands of acres of preserve land added south of Loxahatchee when the flood control project develops.

Indian River Sportsmen at Vero Beach are now staging the annual tourist season fishing contest, with very excellent results. Some whooping big fish have been entered: Lee Riley, with a 31 pound king mackerel; Albert Bowman, with a 12 pound snook; and Hugh Corrigan, 24, 23 and 20 pound sea bass. The seabass were all caught at Sebastian Inlet, now said to be the best fishing grounds on the river.

Did you welcome the New Year in a propitious manner? He sure got a voracious welcome from party crowds all over the land. Imagine there were some swelled and aching heads and bulging eyes the morning after.

The fatalities of the Christmas holiday reached an all time high with highway accidents leading last seems that people cannot learn or won't drive safely.

Report is that the Rotary club is to become the foster father of the Belle Glade high school band during the coming season. A good selection of a project for financial assistance.

The National DeMolays, this month, will place and unveil a statue of George Washington at the Alexander, Va., monument. Funds were collected from all the chapters, including those at Belle Glade, Lake Worth and West Palm Beach.

L. E. Will worked hard while Master of Belle Glade Masonic lodge but he has now an appreciative gift in the form of a fine Elgin watch, to constantly keep his mind in his lodge. One has to be around this man

quite a bit to discover that he has a lot of sentiment hidden by that semi-solent mask of his, especially for things that are old and relates to the Glades. Get into a crowd he can also tell some pretty good stories.

Looked kind of good to see Roger Cunningham and Ward Harrison around town mingling with the old school friends. Navy service seems to be agreeing with a crowd he can also tell some pretty good stories.

The Lions bulletin of recent date had these two items in it, that so good, are passing them along to a wider reader circle:
"And what did mama's little boy learn in school today?"
"I learned two fellows not to call me mama's little boy."Lion Sewell's wife: "And what have you been doing all morning?"
Lion Sewell: "Filling the salt shakers like you told me to do."Lion Sewell's wife: "All that time?"
Lion Sewell: "It ain't easy, pouring salt through them little holes."

Our storm sewer project, which was quite active during the Taylor regime, seems to have died and is now buried deep under other city improvement projects.

It has been some years since I witnessed installation of officer work in the Eastern Star, so I did enjoy witnessing the dignified and impressive work which the Star girls staged at the joint ceremonies on last Thursday night. What ever the Stars undertake they do well. The social hour was a real treat and success for the big crowd in attendance.

"Bo" Pugh, former sea life insurance writer in the Glades for the Gulf Life Insurance company, came down from Crestview, to spend the holiday vacation among former friends and relatives. The past year Pugh again won high insurance recognition, by leading all agents in writing policies, in his division.

City employees liked their initial Christmas party so well that they put it on the blotter for a repeat in 1950.

It cost the city of Belle Glade well over \$1700 for an audit, which showed that it had been "relieved" of a stated sum of \$22,823.00. Guess the price was justifiable to gain the important information.

As certain portions of the city have been recently brought into the expanded fire zone, it means that persons erecting homes or business places will be governed by the Building code. Steel or cement will be the materials from which structures must be built.

With the installation of acoustic tile in the city auditorium, the acoustics should be materially improved. The loud speaker phones placed on the commissioner's desk seemed to be more of an ornament than a useful utility.

In his collegiate days Rev. Dan Graham, now pastor of the Everglades Presbyterian church, attended Seawane college up in Tennessee. He was a member of that famous football team representing that school, which played a dozen games in successive days and won all of them. Those mountain boys played a rugged game those days, even more so than the players of the modern game.

Palm Beach county has had to back up in its intent to have a vegetable display at the Tampa fair this year, owing to the fact that the heavy rains and flooding of fields the past week, makes it impossible to make the necessary display as planing two Sunday games a month.

ned. The RDB, however, will plan for a big display in 1951, if conditions permit.

Did you have your hog jaw and blackeye peas dish for your New Year's dinner? Handled down from early days this is a favored dish in most southern Cracker homes. Some like the look been around Easter.

The U. S. Department of Agriculture has announced that owing to the large reserve corn crop on hand, that in 1950, it will curtail commercial corn planting 12.9 percent. Bet the western corn planters will yell over this order.

Planting the spring tomato crop in St. Lucie county is now under way. The fall deal was a favorable one amounting to over a million dollars. Prices during the season ran from \$1 to \$10 the crate.

Belle Glade will again have a crack colored Bass Ball Team.

For many years past Belle Glade has always had a crack colored baseball team, and will have one again this season under the management of the J. L. Murphy. Early season games will be played at the Okechoebee project field, but a new playing field is being constructed near the new Lakeshore school, which will be dedicated around Easter. The new field is being made possible through public donations and free labor by the colored men, and the athletic field, not only for baseball, but for football and other athletic events. Murphys states that most all his players are again back in the Glades and the Red Wings will field a crack team. In addition to the semi-professional team, the Sterling Clowns, a camp team, will share diamond time with the Red Wings, each team having two Sunday games a month.

On next Sunday, Murphy, will offer a double header game with the Stuart Dodgers meeting the Ft. Pierce Browns; and the Red Wings will take on the winner of the first game. Game time will be 1:30 o'clock.

Bean City Has A Christmas Party

The Bean City folks enjoyed their annual Christmas party and entertainment on Thursday evening before Christmas. A tree and gifts for everyone in the community was a feature of the evening. The children put on a play, Christmas in Foreign Lands. Fruit cake, sandwiches, cocoa and coffee were served.

Bridal Shower Honors Belle Glade Girl

Mrs. J. Frank Prevatt, Mrs. J. H. Harrell, Miss Norma Jean Armstrong, all of Bean City, Mrs. Wm. Blackwell of Belle Glade and Mrs. Gibb Gross of Chosen complimented Miss Julia Bookie, bride elect of Albert C. Owens at a bridal shower at the Belle Glade Woman's Club on December 19. Twenty-eight guests attended and many lovely gifts were showered upon the bride to be.

South Bay Girls Marries Mississippi Man

Mrs. John K. Willis announces the marriage of her sister Miss Annemie Boatwright and William Frame of Gulfport, Miss., on December 22. The bride wore an aqua wool suit for the ceremony.

The bride is the daughter of Mr. and Mrs. John Boatwright of Mill Springs, Mo., and South Bay Frame is the son of the late Mrs. Irene Frame of South Bay. He entered the armed services during World War II and has served in Pensacola, California, Washington and Alaska. He recently re-enlisted for another 6 years and plans to make the U. S. Navy his life work.

The couple proceeded to California where he will report to his base.

 <p>Mr. and Mrs. Charles K. Henry</p> <p>Belle Glade Bakery</p> <p>Breads and Pastries of all Kinds Cakes For All Occasions Avenue A</p>	<p>Standard Oil Products</p> <p>The mechanical-minded men who manufactured automobiles, trucks, and farm machinery worked hard to accomplish the task. After purchasing your motor vehicles or farm machinery, the next important thing to do to keep them in good condition is to use the best in petroleum products, according to Mr. Ivan VanHorn, wholesale commission agent for Standard Oil Products.</p> <p>Mr. VanHorn believes that high grade gasoline and motor oil, and Diesel fuels, such as Standard products sold by him, will protect your cars and machinery.</p> <p>Standard Oil products were established here in 1935, and Mr. VanHorn sells and distributes all Standard products to farmers and growers in the Belle Glade and South Bay areas.</p> <p>Because there are widely varying conditions of temperature, speed and strain under which different parts of your trucks, tractors and other farm machinery are required to operate, Standard Oil products can supply lubricants scientifically engineered for each special purpose.</p>		 <p>LOU BETZNER</p> <p>Hardware, Electric Appliances, Glidden Paints, Sporting Goods Main Street</p>
